[The choice of optimal modern muscle relaxants \(rocuronium bromide, atracurium besilate and cisatracurium besilate\) in one-day surgery in children](#)

<h2>Abstract</h2>

<p>The choice of the optimal muscle relaxant in one-day surgery in children with "small" surgical interventions remains relevant to this day. In modern pediatric surgery, the requirements for the quality of muscle relaxation are highest. How...

[Anaesthetic management of an elderly patient with ischaemic heart disease and previous MI undergoing elective inguinal hernia repair: Case report](#)

<h2>Abstract</h2>

<p>Ischemic heart disease may occur in isolation, or in combination with the pathological process of vascular ageing, arteriosclerosis. These two conditions have differing impacts on the haemodynamic changes in response to anaesthesia and surgery. Hypertension ...
