[Spiritual and religious Islamic perspectives of healing of posttraumatic stress disorder](#)

<h2>Abstract</h2>

<p>It is known today that psycho-trauma and PTSD cause different levels of mental and social dysfunction.

Human spirituality and capacity to meet further life difficulties become severely damaged. There is wide accepted

attitude today that in holistic approach ...

[Multi-factorial Depressive Disorders Need Multi-dimensional Interventions](#)

<h2>Mini Review</h2>

<p>Depressive disorders are so frequent and disabling health conditions which have been inarguably accepted

to be a public health concern [1]. Many drugs have been developed to treat depression, however the efficacy of the

antidepressants are inadequate part...
